

## Item # X-958-7446, Tetrahydrofurfuryl Methacrylate

**Product Name:** Tetrahydrofurfuryl Methacrylate, THFMA, THF Methacrylate  
**CAS#:** 2455-24-5

Tetrahydrofurfuryl Methacrylate or THFMA is a polar monomethacrylate containing a five-membered heterocyclic group that works well as an adhesion promoter in anaerobic adhesive and other applications.

### TYPICAL PROPERTIES

Molecular Formula	C <sub>9</sub> H <sub>14</sub> O <sub>3</sub>
Molecular Weight	170.208
Refractive Index	1.456
Color (APHA)	<100
Inhibitor	MEHQ: 80-120 ppm BHT: 400 – 700 ppm
Specific Gravity	1.04 g/mL
